In re: WHYZ Radio, L.P. (WHYZ)
WCSZ(AM), San Souci, South Carolina
Facility Identification Number: 25235
File Number: BP-20101112AXA

Dear Mr. Kelly:

This letter is in reference to the above-captioned minor change application filed by WHYZ to change the WCSZ(AM) daytime antenna operation from directional to non-directional. We noted that a request for waiver of Section 73.24(g) was included in the application.

WHYZ requests a waiver of Section 73.24(g) because the proposed daytime 1 V/m contour contains 1,336 people, or 1.67% of the total 79,810 people located within the 25 mV/m contour, exceeding the limits set forth in Section 73.24(g) of the Commission's rules.¹ In support of the waiver request, WHYZ states that it will satisfy all reasonable blanketing complaints inside the 1 V/m contour pursuant to Section 73.88 and Section 73.318(b) and (c), and that the proposal reduces the population inside the licensed 1 V/m contour from 2,699 to 1,336 people. As a result, we find that a grant of waiver of Section 73.24(g) is in the public interest, and is consistent with established Commission policy and outstanding precedents.

Accordingly, the request for waiver of Section 73.24(g) is GRANTED, and the application (File No. BP-20101112AXA) is GRANTED.

Sincerely,

Son Nguyen
Supervisory Engineer

Dr. Glenn W. Cherry

¹ Section 73.24(g) allows up to 300 people or 1% of the population within the 25 mV/m contour.
